Re: Contract # 85-B-406

Gentlemen,

I represent the Plaintiff in an action entitled H.B. Rowe v. Basix Corporation, et al, which has been filed in the U.S. District Court for the Southern District of New York, arising, primarily, from the Defendants' refusal to pay commissions earned by my client on a sale awarded pursuant to RFP 85-B-406 in November, 1985, of The Personnel Access Security System.

The Defendants have claimed by way of answer to the complaint that Mr. Rowe neither initiated contact with the Agency nor was responsible for the resulting contract.

Accordingly, it would appear that it will be necessary to speak with those individuals in the Agency who were involved in the contract negotiations and to view the various documents, including intra-agency memoranda and other correspondence, relevant to the contract and its award.

Neither I nor my client have any wish, nor do we see any current need, to bring to light any classified information in prosecuting the matter, and would be agreeable to redaction of any relevant, classified documents.

We seek the names and addresses of all those individuals at the Agency who were instrumental in dealing with the contractor, Basix Control Systems Corporation, during the period between March and December, 1985, and I would appreciate your guidance as to the proper method of discovering this information as well as the relevant documentation.

Very Truly Yours,

  
F.W. Meeker

cc: Mr. William Casey
